## Mobile apps

### Kids Health Info Fact Sheets

The Kids Health Info Fact Sheets have been developed for parents and patients, covering relevant medical conditions, injuries and more.

[Download now](#)

### My RCH

My RCH is an interactive guide designed for patients and families of The Royal Children's Hospital (RCH) to help you know what to expect during your stay and navigate around the RCH world.

[Download now](#)

### My RCH Portal

My RCH Portal app gives RCH patients and families easy access to the information they need to manage their healthcare.

[Download now](#)

### COVID RCH

The RCH COVID-19 app is a resource for staff at The Royal Children's Hospital to stay informed and receive up-to-date information in a timely manner.

[Download now](#)

### Clinical Practice Guidelines

The Clinical Practice Guidelines have been developed to deliver up-to-date health information for both medical practitioners and the wider community.

[Download now](#)

### Check-in

The Check-in app allows you to easily check-in for Specialist Clinics appointments, receive notifications about when the clinician is ready to see you, and view a diary of your child's upcoming appointments.

[Download now](#)

### Emergency Nurse Practitioner

The RCH Emergency Nurse Practitioner App is an informative resource for clinicians who have an interest in paediatrics.

[Download now](#)

### Okee in Medical Imaging

Help Okee and friends as they dodge sharks, navigate pipes before heading to X-ray, MRI, CT, Nuclear Medicine, Ultrasound and Fluoroscopy.
